EXAMINER'S STATEMENTS OF REASONS FOR ALLOWANCE

1. Claims 1-3, 5-17, 21-45, which have been renumbered claims 1-3, 4-16, and 20-44, respectively, are allowable over prior art because related references do not disclose identifying an expected quantization distortion for each of the quantization levels in a frame; summing the expected quantization distortion; and removing the summed expected quantization distortion. Claims 18-20, which have been renumbered claims 17-19, respectively, are allowable over prior art because related references do not disclose identifying an expected quantization distortion for each of the quantization levels in a frame; summing the expected quantization distortion; and determining a phase spectrum of the expected quantization distortion.
